

## SEREN 2

**Project title:** Security Research Ncp Network – Phase 2 (Coordination Action, 2012 -2014)

**Acronym:** SEREN 2

**Project description:** The main objective of this project is to continue promoting and enhancing trans-national cooperation among Security National Contact Points (both at the level of people and institutions appointed in this respect), by reaching a balanced distribution of proficient services to be delivered by Security NCPs to their clients while assisting them to write high quality proposals to be submitted in the future calls.

SEREN 2 is a stakeholder oriented proposal with the main aim of reaching a balanced distribution of proficient services to be delivered by Security NCPs to their clients while assisting them to write high quality proposals to be submitted in future calls. Having in mind the regular NCP activities and their role in improving their own countries participation in European research activities, by improving communication within the network, by collecting data upon security research at national / regional / European level and by sharing this information, gathering together the researchers and policy makers within different events foreseen in the project, assessing the needs of the clients and through efficient partner search activities, the result will be a better coordinated security research. Activities like quality check of partners' profiles, and project proposals, and the support to the alignment of project ideas with proper calls for proposals will pave the way to the enhancement of the quality of the research activities in the Security domain. During the project's lifetime, the Security NCPs network's capability to provide high standard services to stakeholders and to cope with specific issues that might arise will be continuously improved by means of intensive and effective cooperation between the people and organizations involved, during trainings, best practices exchange, joint activities to be carried out and special tools to be implemented, leading to a reinforced trans-national cooperation among the members of the network.
